

Games of The General User Manual

Angelica, Caitlin, Ivan

How to obtain the game:

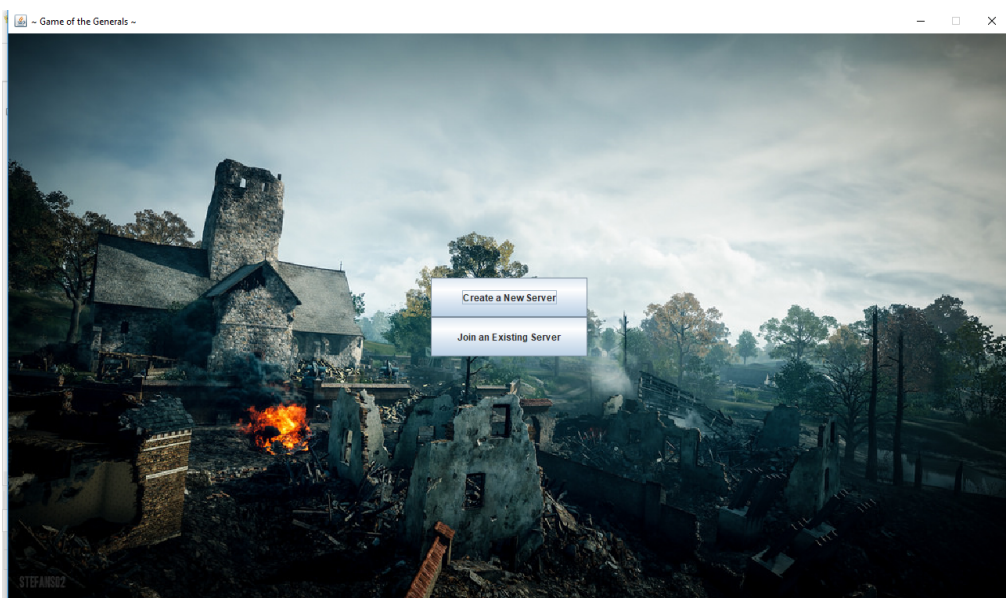

- Download the GameoftheGenerals.jar file

Server view:

- Click the start game button

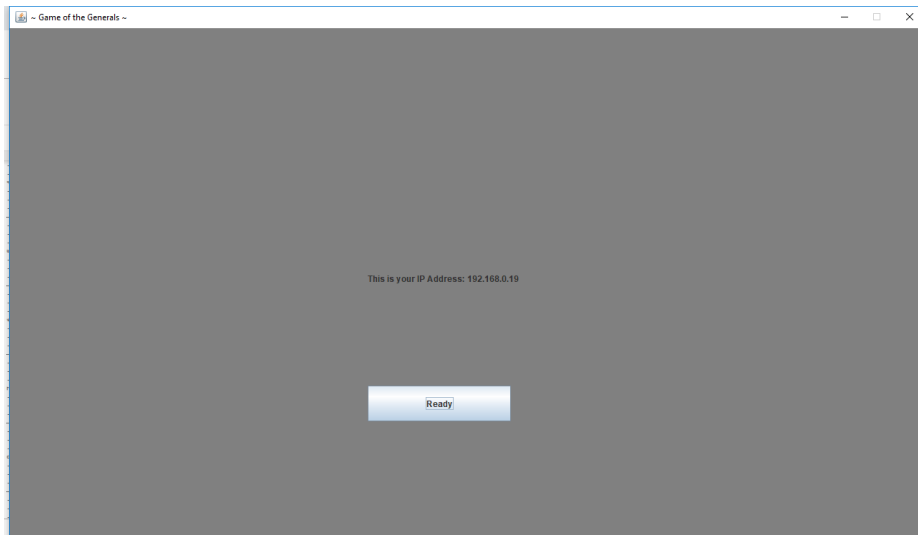

- Click the “Create server button”

- Give your client the server IP address

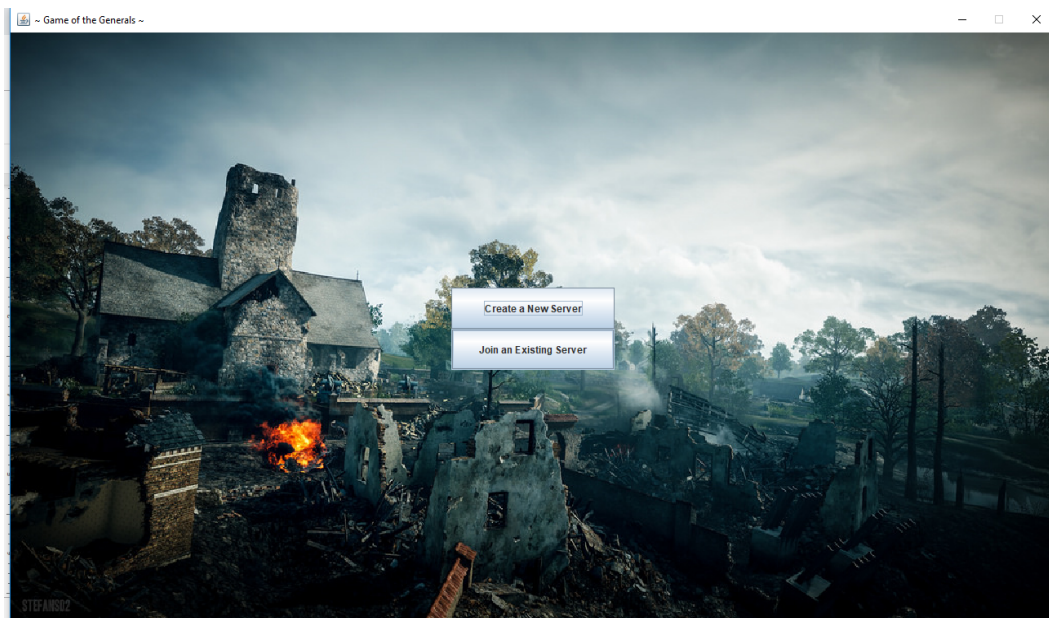

- Once they have gotten the server IP address and pressed the join button, press the ready to button

- Start the game and have fun!

Client view

- Click the Start Game button
- Click the Join server button

- Ask your server master for the IP address
- Enter the server IP address

- Drag and drop the piece into the grid (only up, down, left, and right when in the game)
- No undos, so don't make a mistake

How to talk in the game to the other person

- Click the text field under the text area and type
- When done typing your message, press ENTER or RETURN

The image shows a chat interface within a blue-bordered container. It features a large white text area at the top with the text "Me: hi" in the top-left corner. Below this is a smaller white input field containing the text "hihihihihihihi".
